

PL+SWISS

IN SERVICE SUPPORT COMPANY

REPAIR AND SUPPLY
OF INDUSTRIAL ELECTRONIC EQUIPMENT
NEW IN BOX AND REFURBISHED

OBSOLESCENCE MANAGEMENT – IN SERVICE SUPPORT

OUR SERVICES

MAINTENANCE REPAIR

We suggest to repair your equipment. Our approach to this service is to treat the elements in breakdowns, to replace them, to take all the necessary preventive measures. The material is then cleaned, tested and repackaged.

SERVICE EXCHANGE

Standard exchange is an alternative to the best cost / time ratio. We suggest you provide refurbished equipment to handle your emergency, and upon receipt, you will have two weeks to return your defective equipment.

SUPPLY REFURBISHED

Refurbished care is the key to obsolescence management. We offer used equipment completely renovated (all preventive measures carried out), cleaned, tested and guaranteed.

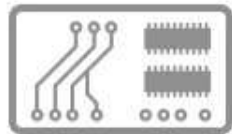

SUPPLY NEW IN BOX

During our many buying back, we recover customer stocks with brand new equipment (sealed by the label of the manufacturer) and you also offer distributed materials brands SCHNEIDER, SIEMENS, ALLEN BRADLEY, LEROY SOMER, OMRON.

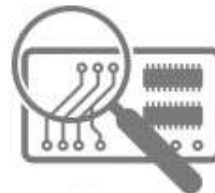

LEASING

An ephemeral project? A need for programming tools? PLSWISS offers you the possibility to minimize your investments, to rent all the equipment from our stock to the week. So, you only pay what you consume!

PREVENTIVE

As for your car, certain types of equipment must be cyclically controlled to keep them in the best conditions to keep your production tool as long as possible. PLSWISS conducts prevention campaigns on the equipment needed to make it more reliable.

OBSOLESCENCE STUDY

Do you have a fleet of machines and wish to obtain a diagnosis of obsolescence on the electronic part? PLSWISS provides tailor-made solutions to better identify the critical elements and their degree of obsolescence to help you develop a personalized management strategy.

IN SERVICE SUPPORT

This service is a service that provides you with long-term visibility and responsiveness to all critical elements of your electronic installations. In the form of a contract, we ensure the durability of your obsolete equipment over the desired number of years to avoid shortages.
